

Commodore's Report

General Meeting Sunday 18/11/2018

- “Jean's “steering cable & emergency stop mechanize has been replaced by Laguna Boating centre so she is fully operational again.
- SQSA have had their selection trials on 21st & 22nd of October with everything going well and fair weather for the Junior Sailors. Our club supported the sabots with a start boat and use of the club house on Saturday night.
- The Junior Halloween Regatta on 27th & 28th of October with good weather and up to 40 Junior boats thanks to Charlie, Mignon & the team at junior sailing.
- The Cat Challenge is done & dusted for another year. Weather was variable but the team managed to get 5 races run with only a couple of mishaps. The course needs to be altered so the finishing boat can see the sail numbers at the finish and try to spread the competitors out so there are not so many boats finishing at the exactly the same time.
- I have been getting information from Sue Germain about the various regattas that she has put work into for this upcoming season so we can get them organised without going over the same ground. We have not yet found another Rear Commodore with some of the necessary skills to continue the essential work that Sue has been doing so if you can suggest anybody that may be suitable please do so.
- With our coming regattas Rick Edmonds has agreed to be PRO for the Monomasters and YQ has found a NRO who may be interested in being race officer for National Impulse titles and another who may be interested in being race officer for the State Laser Titles.
- Kabi has left to help with the Aussie & World A Class titles in Hervey Bay.
